JOB WORK,

Call at the Journal Office.

In Imperial and Monarchical countries there is generally an official organ in which the edicts of the government are proclaimed. When anything of importance to the people is being discussed, such as increasing or reducing taxation, the organ, in what is termed "an inspired article," gives the views of the Monarch and his Ministers on the question. In Nevada, which is now generally conceded to be governed by a triumvirate, with a strong tendency toward an absolute monarchy, there is also an official organ, in which "inspired articles" are published. The Nevada organ is not printed at the seat of Government, but is in easy reach of the governing power. This organ proclaimed in the face of the majority of the votes of the people, that no Constitutional Convention would be called, and subsequent events proved that the proclamation was inspired. Now, when every newspaper in Nevada that reflects public sentiment is opposed to the bill which empowers three men at the State Capitol, under the influence of the triumvirate, to assess all the railroads at their "cash value" and annoy any individual, who might incur the enmity of the powers, by increasing the assessed value of his property, and compelling him to submit to the imposition, or incur the expense of appearing with his witnesses before the Board, the organ, doubtless in an inspired article, approves the measure. Again, speaking as one having authority, not as the Scribes, it emphatically declares that there is no occasion for uneasiness as far as the Legislature is concerned. The organ may deny, as it is polite for it to deceive the public, that its inspirations are derived from the bosses who control at least two departments of the State Government and are suspected of having a powerful influence with the third, but the confidence with which it declared that there would be no Constitutional Convention, though the people declared for it, and its persistency in advocating every measure which the bosses favor and the public oppose, prove that its inspiration is derived from those whose will is absolute in the State Capitol.

WHITHER ARE WE DRIFTING?

The condition of public affairs in Nevada is to be deplored by every respectable citizen of the State. The reputable members of the dominant party have lost all confidence in the men they placed in office. They see by the actions of a majority of those men that they have no respect whatever for the will of the people, but are controlled by a few persons whose interests seem to conflict with those of the general public. Prominent business men and heavy taxpayers, as appears from the published reports, have to beg the Southern Pacific Company and employ the Superintendent of the Virginia and Truckee Railroad to interpose their power and save the people of Nevada from their representatives in the State Legislature. Was ever a State in the American Union so degraded? Was ever a community of American citizens so humiliated? Was ever a free people before driven to the desperate strait of imploring the officers of corporations in the State to save them from the men they elected to enact their laws and conduct State affairs? The Legislature is beyond question creating the impression that a majority of its members are faithless to their pledges and untrue to their constituents, but there are good and true men in that body who must feel humiliated by being classed even in a general way with those whose conduct impels even a few citizens to appeal to the corporations, which presumably control them, to prevent the enactment of unjust laws.

SENATOR JONES ON THE FORCE BILL.

Senator Jones, of Nevada, who has too much faith in a republican form of government to endorse the infamous Force bill by which it was sought to perpetuate Harrison's lease in the White House, says of that measure since its defeat: "I don't care whether you give that power to the man that is in the White House now or to somebody else, it is a solemn fact that when you do it you say goodbye to a republican form of government. It would be the beginning of the end, and I tell you nine-tenths of the Republican party say the same thing. Nobody wants it except the employees of the Administration. There is that man from the Tribune who is over in Paris, and the Philadelphia chap—Smith, I guess it is, who is in St. Petersburg. Their papers bow themselves before him, but they are about all. Leave them out and the fellows who are looking for something, and you have no Force bill following at all. Now I know what I'm talking about."

Notwithstanding the facts stated by Senator Jones and the unanswerable speech made by Senator Stewart against the bill, the Nevada Legislature voted down a resolution thanking our Senators for voting against it. Verily it may well be asked "if Nevada has a republican form of government."

The Silver State gives the names of the Democratic gold bug papers east of the Rocky Mountains, eight in number. Its columns are not large enough to contain the names of all the gold bug Republican papers, including the San Francisco Bulletin, from which it draws much inspiration.

YUMA, ARIZONA, DOOMED.

The Wreckage of the Ship Elizabeth Sold for \$200.

THE S. P. TO RESUME TRAFFIC.

Report of the Director of the Mint—The Ship Orient 257 Days on Her Voyage—The German Ship Potsdam Wrecked, Loss \$300,000.

Yuma, Arizona, Doomed.

Special to the Journal.

SAN FRANCISCO, February 26.—Superintendent Fillmore, of the Southern Pacific, received a dispatch from Yuma to-day stating that the town is doomed to destruction. Three quarters of the city is flooded and the water is also threatening the last quarter. The operator closed by saying he could not keep his place another half-hour. The Southern Pacific Division headquarters are swept away and with them the ticket and freight offices. The round houses and machine shops will probably escape as they are on high ground. The twelve hundred inhabitants of Yuma have taken refuge in the penitentiary, on high ground. The bridge across the Colorado river, five hundred feet long, will be destroyed, as the water is almost up to it and rising a foot an hour. Yuma lies to the southwest of the bend of the Gila and Colorado rivers. To the northeast is the penitentiary, on high ground, and to the northwest is the high mesa on the sloping sides of both hills, on which part of the town is built. East of the town there was formerly a levee which was destroyed by a flood, and instead of being rebuilt it was replaced by a second one at right angles to the first and intended to protect that portion of the town from the overflow of the Colorado river. This latter calamity has happened, and added to the swollen waters of the Gila river have burst the banks and overflowing the old levee have met the floods from the Colorado river and then swelling over the new levee have deluged the high portion of the town as well as sweeping all the lower part.

The railroad track for a distance of twenty-two miles east of Yuma has been washed out of sight, and when the water subsides it will take over a week to put the track in running order. No news are obtainable from the desert.

Senate Proceedings.

Special to the Journal.

WASHINGTON, February 26.—In the Senate to-day, among the papers presented and referred, were numerous protests from the northwest portion of Nebraska against the neglect of the Government in the matter of disarming the hostile Sioux, and asking protection from Indian depredations.

Shoup was appointed on the Committee on Territories in place of Pierce, excused. The Legislative, Executive and Judicial Appropriation bill was reported by Allison who gave notice that he would ask the Senate to consider it as soon as the Sundry Civil bill shall have been disposed of.

The Sundry Civil bill was taken up and the Committee on Amendments disposed of, and other amendments were agreed to. Among them was one by Stewart, appropriating \$20,000 for the collection and publishing of information as to the best methods of cultivating the soil by irrigation.

The bill was reported to the Senate and passed after the amendments were agreed to. The Legislative, Executive and Judicial Appropriation bill was then taken up.

After some discussion the Legislative bill was laid aside and the conference report on the Military Academy Appropriation bill was agreed to.

The chair laid the Nicaragua Canal bill before the Senate, but Padlock insisted on the Pure Food bill, but as no quorum was present the Senate at 5:45 adjourned.

Traffic to be Resumed on the S. P. R. R. Special to the Journal.

SAN FRANCISCO, February 26.—General Superintendent Fillmore, of the Southern Pacific, said to-day that he expected the train which left here to-night could go through to Los Angeles and Colton and would be able to reach Yuma by Sunday night. The work of clearing the line will not be heavy, and he thought that connections between Yuma and El Paso and the East would be established by Sunday. General Manager Bissell, of the Atlantic & Pacific road, telegraphs from Flagstaff, Arizona, that with the exception of the damage to the bridge at Barstow, Cal., their line is open, and by transferring passengers at the bridge traffic can go on as usual.

Track Washed Out and Bridge Destroyed Special to the Journal.

REDLANDS, Cal., February 26.—A messenger from Elsinore says seven miles of railroad between Elsinore and Perris is washed out and the bridge gone, and it is reported that the road through Temecula canyon is entirely destroyed.

The German Ship Potsdam Wrecked.

Special to the Journal.

SAN FRANCISCO, February 26.—The German ship Orient, Captain Kuhl, from Swansea, has arrived after a voyage of two hundred and fifty-seven days. September 12th, when off Cape Horn, her cargo of coal was found to be on fire. The vessel was headed for Arcad, on the Chile Islands, where she was pumped full of water. She then proceeded to Valparaiso, where she was overhauled, and left for this port. While at Valparaiso the German ship Potsdam went ashore and was wrecked at a loss of \$300,000. The bark Helen W. Almy arrived from San Benito, Mexico, to-day. Captain Luttrell states that when the bark left the Gilbert Islands September 1st the Arthur I, which left here several weeks ahead of the Almy with the mail for the Islands, had not been seen. Wreckage supposed to be a part of the vessel was picked up at one of the islands.

The wreckage of the ship Elizabeth, which went ashore four miles up the coast from here last Saturday, was sold to-day at auction to Captain Whitelaw for \$200. Such of the cargo as may be found above low tide was sold to A. Stein for \$390.

Sprockles Brothers have libeled the British ship Hesperides, which collided with the bark Alex McNeill in the Bay during the gale of the 24th inst. It is alleged that the vessel and cargo are worth \$300,000, and the U. S. District Court is asked to award them competent salvage.

House Proceedings.

Special to the Journal.

WASHINGTON, February 26.—The House met at 10 o'clock this morning, there being less than 25 members in attendance. On motion of Quinn the Senate bill was passed for the relief of the assignees of the late John Roach. The House then went into Committee of the Whole and after a general debate on the Shipping bill, in which Morrow of California participated, speaking in favor of the bill, the House took a recess.

At the evening session the House Committee of the Whole took up the General Deficiency bill. Sayers of Texas moved to strike out the paragraph appropriating the necessary amount for the payment to the Pacific roads for services performed for the Government. After a long debate the motion to strike out was agreed to—147 to 63. The Committee rose and the Deficiency bill passed.

Adjourned.

Report of the Director of the Mint.

Special to the Journal.

WASHINGTON, February 26.—The report of the Director of the Mint for the calendar year 1890 shows the gold product of the United States was 1,588,880 fine ounces valued at \$32,845,000, and increase of \$45,000 over the preceding year.

The silver product of our mines approximated 54,500,000 ounces, corresponding to \$57,225,000 and at the coinage value of silver to be \$70,464,645, an increase of four and one half million fine ounces over the previous year. The total amount of silver purchased by the Government during the year was 37,594,375 ounces, costing \$39,091,640. The Director estimates the gold product of the world for the calendar year was \$116,490,000, a falling off of \$3,067,000 from the year before and the silver product of the world was 130,000,000 fine ounces, an increase of 7,859,375 ounces.

Another Storm on Hand.

Special to the Journal.

SAN BERNARDINO, February 26.—The barometer has fallen decidedly all over northern California and Nevada, and rain will probably become general throughout California. The wind will increase in force with dangerous gales off the coast. Following is the rainfall reported for the past twenty-four hours: Red Bluff, 0.22; Sacramento, 0.04; San Francisco, 0.22 inches.

Local Trains Running.

Special to the Journal.

PASADENA, February 26.—All local railway trains are again running, but there is no prospect of overland mails for several days as over two miles of track of the Santa Fe in Cajon Pass is either washed out or covered by landslides.

Rain and Snow at Nevada City.

Special to the Journal.

NEVADA CITY, February 26.—It recommenced storming here at dark this evening, both rain and snow. It is snowing hard higher up in the mountains.

Danger of High Water.

Special to the Journal.

CHICO, February 26.—The rain has set in again and it is feared much damage will be done if it lasts long, as the Sacramento river is now very high.

Snow at Downsville.

Special to the Journal.

DOWNSVILLE, February 26.—It is still snowing very heavily here and the stages are all on runners.

Pineapple for Dyspepsia.

Another possible triumph of medical science over disease is suggested by a paper read before the Detroit Medical Association recently on "Alimentation in Therapeutics," in which was announced an important discovery by Signor Vincenzo Marciano, of Venezuela, in regard to the pineapple. According to Signor Marciano there is in the common pineapple a ferment or principle similar to pepsin, of such remarkable strength that the juice of a single pineapple will digest ten pounds of beef. If this proves true a new and important agent in the treatment of dyspepsia has been discovered. As nearly all other diseases are directly influenced by the degree in which food can be assimilated, and as millions of people have imperfect digestion, the possibilities of this discovery are almost limitless, if it proves to be as represented.—Cleveland Leader.

LOVELOCK NOTES.

Good Resolutions Sent to the Wrong Place—A Good Season Assured to Farmers.

LOVELOCK, Nev., February 26, 1891. EDITOR STATE JOURNAL: As fashion dictates the citizens of Big Meadows and vicinity follow. The fashion this Winter is to hold mass meetings. Two have been called at Lovelock, and as near as your correspondent can learn, the following are the resolutions adopted:

First—To provide for the calling of a Constitutional Convention as asked for by the people at the recent election.

Second—That the salaries of all county officers of Humboldt county be reduced 33 per cent.

Third—To amend the existing water law known as The Osborne law, and provide for the formation of districts by a majority of the taxpayers of any section that wish to form a district for the purpose of storing, diverting and distributing water, with full power to issue bonds to construct and maintain works and levy taxes on the property within the district for the payment of the same; also to provide for the election of a commissioner and three trustees of each district so formed, and for the protection and encouragement of recent settlers, the enactment of stringent laws to prevent the waste of water, carelessly, maliciously, or otherwise, and to more particularly define the beneficial use of water, and to compel all persons diverting water from the streams of this State, to shut down their headgates at the river when not making a beneficial use of the water.

Fourth—That the office of Road Supervisor be re-established in Humboldt county.

Fifth—That all mileage hereinafter paid to any State, county or township officer be limited to the amount actually expended by the officer claiming mileage when the same is claimed for travel over a railroad.

Sixth—To oppose the passage of a law, creating a State Board of Equalization.

The resolutions are embodied in a petition to the Senators and Assemblymen composing the Legislature. This is a grave mistake, though it is one which all mass meetings held this season seem to have made. The petition should have been sent to the power behind the State Government, the bosses, who control it. Then there might be some hope; but to ask the Legislature direct to do anything beneficial to the public experience proves to be absurd.

The recent storms make farmers smile, and the blacksmith, the store keeper, saloon keeper and butcher feel elated and have pleasant faces. There will be a good supply of water this season and that means prosperity.

The daily shipments of hay to California average about 60 tons. Still there is plenty on hand and for sale.

ALFALFA CHAFF.

Hard Punishment.

Curt Abel, retired corporal in the Wurtemberg contingent of the German army, has been condemned to fourteen days' arrest by a court martial in Freiburg. Abel's offense was that he exposed the abuses practiced by German officers on German privates, and enumerated in several sensational pamphlets cases in which soldiers had been beaten, burned with cigars, and cut with knives by lieutenants in command of them. The ostensible reason of his punishment, however, was that he had observed these abuses without reporting them. Abel's trial and sentence have aroused much indignation in all the German Liberal dailies which consider his treatment a matter of simon pure intimidation.—Berlin Letter.

A Gas Company Fined.

The Gas Light and Coke company, operating in London, has been fined £100, with costs, for a deficit of one candle power in the illuminating power of the company's gas during a foggy period. The London Star says: "One candle power means one-sixteenth of the standard illuminating power, and the cost of adding that additional power over the whole of the area supplied by the company would be a good many times £100. As in the case of adulteration of food, a money fine is a mere farcical punishment for offenses of this kind unless inflicted often and heavily."

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. L. Hood & Co., Lowell, Mass.

Churchill County Items.

J. M. Sanford, of Stillwater, Churchill county, informs the JOURNAL that they have had heavy rains in the valley and considerable snow in the mountains down in his section.

There are about 500 head of cattle being fattened for the market about the Sink of Carson.

Public opinion is strongly against the State Board of Equalization. He says the people feel that it would not only keep people from investing in Nevada but it would tend to get many settlers to leave at the first opportunity.

Social Dance.

A social dance will be given Saturday evening at Armory Hall. Good music in attendance, and a good time assured to all who attend.

Money made in Nevada is making Mrs. John Mackey one of the most popular women in Paris. A dispatch from that city says she is expected back there within a week, and she is a great favorite. One reason of her popularity is that her liberality makes the trades people happy and another is that she is a generous hostess to her friends. No doubt the expenditure of a part of her millions in this State, where they were accumulated, would make the lady popular in Nevada.

The body of ex-State Treasurer Tufts will arrive in Reno this morning enroute to Carson, where he will be buried. The funeral will take place next Sunday, and will be conducted by DeWitt Clinton Commandery of Knights Templar of Virginia City, of which he was a member.

Don't forget that F. Levy & Bro. are selling their immense stock of dry goods, etc., at lower prices than ever.

OBORON'S LAST COUNCIL.

If, on some woodland lawn, you see a ring
Of darker hue upon the paler grass—
The strange green growth which children as
they pass
Still tell each other is a fairy thing

Left by the Elves o'er night—let your soul cling
To the sweet thought that there the Elf King
Was
With all his crew at dawn; but that, alas!
They met there for their last, last gathering.

For they are dead; and though the sunshine still
Dances in flecks and dances the leaves above,
And still the squirrel nibbles and the mouse,
The little folk are gone who used to fill
The hazel copse where the wildwood dove
With cross laid twigs still builds her little
house.

He called a last assembly of the Elves.
Hundreds of Fairies in the forest met
'Neath one huge oak tree—Sprites of dry and
wet,
Pixies and Imps, and every gnome that dwells
And Oberon said: "We lurk by tens and twelves,
Starved in the woods. Man's faith—our food as
yet—
Feeds us no more; the fairies' sun has set;
We are but shadows of our former selves.

"The time to leave the woods and to depart.
When faith quite ends (so say the high decrees)
Then death will strike us with his icy dart.
Long have we nestled in the hearts of trees;
Now we must needs in the poet's heart—
The only place in which we ne'er shall freeze."
—Eugene Lee Hamilton in Academy.

An Uproar in Court.

One of the most astonishing features
of the running of the civil courts of this
city is the excitement which a harmless
citizen can cause by walking into the
court room with his hat on. Of course
no one is so ignorant as not to know
that it is not the proper thing to keep
his hat on in the presence of a judge
holding court, but it frequently happens
that a man who is strolling about the
corridors of a court house will step into
a court room and absent mindedly fail
to remove his hat. Now there may be
a court officer within two feet of him.
He taps the offender on the shoulder
and whispers to him to take off his hat.

That is the curious feature of it. He
doesn't do any such thing. Instead, he
shouts at the top of his lungs, "Hats
off!" The officer in the corner, who has
been dozing, wakes with a start, also
shouts "Hats off!" and the third officer,
who has had his back turned toward the
offender, in the act of handing a paper
to the witness on the stand, wheels
around and likewise shouts "Hats off!"
Judges, lawyers, witnesses, jurors,
all are startled at the sudden outcry,
and the offender against court room eti-
quette sneaks out of court, abashed and
wondering why he couldn't have been
asked to remove his hat without so much
attention being attracted to his offense.

Humor on a Sick Bed.

While reading one of the humorous
papers a few days ago I came across a
sunny story which carried me back to
months ago when, sitting in my room
one evening, I was summoned by mes-
senger to the sick bed of a friend. He
perhaps one of the best known funny
paraphraser in the country, and his
work finds a ready sale wherever offered.
Upon arriving at the room of my friend
I found him in a high fever, tossing on a
bed of perfect agony. I had not sat long
by his side when, turning over, he said
to me: "My dear fellow, my 'copy' is
due to-morrow morning at the office of
—". Won't you take a pad and write
down some paragraphs at my dictation?"
I took a pad, and for a half hour my
friend dictated to me a continuous string
of jokes, many of them so funny that I
could scarcely repress laughing myself.
One story I especially remembered as ex-
ceedingly bright and witty, and yet it
was dictated between groans. There
were indeed people in this world who suf-
fer to make others laugh.—Edward W.
Bok's Letter.

The Spectral Fleet.

The legend of the spectral fishing fleet
of St. Mary's Bay is of modern ori-
gin. In 1863 a fishing fleet, homeward
bound from the Grand Banks, was driven
by stress of weather into St. Mary's Bay.
The storm increased in fury, and 100
boats went down on that August day in
the storm tossed waters. There are now
hundreds of fishermen ready to swear
that ever since, when they have sought
shelter in fog and storm in St. Mary's
Bay, they have caught glimpses of a
phantom fleet, heard the flapping of the
sails and the shouting of the sailors when
no fleet was there. This may be ac-
counted for by the fog, which nearly al-
ways hangs about the bay, for any one
who has sailed in a fog knows that he
can see and hear almost anything he
pleases in it.—New York Tribune.

The Chattering Kaiser.

The rapidity with which the German
emperor talks when delivering a speech
has been determined by Dr. Engel, who
is one of the chief reporters in the reichs-
tag, and who has stenographed the em-
peror's speeches very often. According
to the doctor he speaks very rapidly in-
deed—about 275 syllables in each min-
ute, and occasionally the rate at which
he talks is even 300 syllables in a minute.
—Vanity Fair.

To teach a dog to "speak" hold some
dainty before him when he is hungry.
At first he will not know what is wanted;
but say "Speak!" to him, and when he
barks, which he is pretty sure to do when
he finds the morsel still beyond his reach,
feed it to him at once. He will soon as-
sociate the word "speak" with the bark
and the dainty.

The largest and heaviest building stone
ever quarried in England was taken from
the Plankington quarry, near Norwich, in
February, 1890. It was in one piece,
without crack or flaw, and weighed over
thirty-five tons. It measured 15 feet
long, 6 feet high and 5 feet wide.

An interesting sight in some of the
cemeteries of Kansas is the pine board
advertisements of undertakers and tomb-
stone manufacturers tacked up on the
trees by enterprising advertisers.

St. John Lubbock kept a queen bee
for fifteen years, a test proving her eggs
to be just as fertile at that age as they
were twelve years before.
